POLL #1

Are you attending this Web Forum:

a. Individually
b. In a group of 2-5 people
c. In a group of 6-10 people
d. In a group of more than 10 people
Debbie Lou is the program analyst with Active Living Research, a national program of the Robert Wood Johnson Foundation. Debbie engages advocacy, policy, and community groups to develop opportunities for research translation and dissemination, especially to ensure the research meets the needs of communities at highest risk for childhood obesity.

Debbie is co-author of a research synthesis with Dr. Wendell Taylor titled “Do All Children Have Places to be Active?” This synthesis reviews evidence showing that lower-income people and racial and ethnic minorities often live in communities that discourage active living.

Objectives

• Learn about CPPW projects from 3 different regions focused on active transportation;

• Understand how policies and the built environment impact public health;

• Identify how multiple sectors/stakeholders can work together to pursue active transportation projects
Thank you to our presenters:

Nick Sims
Vikrant Sood
Julia Murphy
POLL #2

How knowledgeable are you about the connections between “active transportation” and public health?

a. Very
b. Somewhat
c. Just a little bit
d. Not very much

Julia Murphy hails from the City of San Antonio’s Office of Sustainability. She runs the award-winning “San Antonio Bikes” program and is currently overseeing key projects such as the implementation of the comprehensive Bicycle Master Plan, San Antonio B-Cycle municipal bike share system, and a bicycle safety and awareness media campaign. In 2010, the city was awarded “Bicycle Friendly Community” status at the bronze level by the League of American Bicyclists. San Antonio was also named a top-50 city for cyclists by Bicycling magazine in 2012. A certified planner, Julia has a Master of Science degree in Community and Regional Planning from the University of Texas School of Architecture.
