Carmen R. Nevarez, MD, MPH
Vice President for External Relations and Preventive Medicine Advisor
Public Health Institute

Dr. Nevarez has over 32 years of experience as a physician and 29 years as a public health practitioner, having served as the Director of Department of Health and Human Services and Health Officer, City of Berkeley, California, as well as in various clinical settings including Medical Director at La Clinica de la Raza in Oakland. She is Immediate Past President of the American Public Health Association (APHA). Her areas of expertise include women's reproductive health, community based strategies for chronic disease prevention, and social media for public health.

Julia Caplan is the project lead for the Health in All Policies Task Force, a collaboration between the Public Health Institute, the California Department of Public Health, and the California Strategic Growth Council.

Ms. Caplan has twenty years’ experience in community building, social change, management, and public policy leadership. She has worked to support youth leadership, reproductive rights, economic security for seniors, and protections for consumers of financial products. Ms. Caplan was a fellow in the Women’s Policy Institute in 2009-2010, and holds masters’ degrees in public policy and public health from the University of California, Berkeley.

Dr. Linda Rudolph is an independent consultant who works on Health in All Policies, Climate Change and Health, and Healthy Communities. She previously served as Deputy Director, California Department of Public Health, Center for Chronic Disease Prevention and Health Promotion; in that role, she served as the founding chair of the California Health in All Policies Task Force and the California Climate Action Team Public Health Work Group.

Dr. Rudolph has also worked as the Health Officer and Director of Public Health for the City of Berkeley, and the Chief Medical Officer for Medi-Cal Managed Care. Dr. Rudolph received her MD from the University of California, San Francisco, and an MPH from UC Berkeley. She sees climate change as the most significant public health challenge of the 21st century.
