Christopher Kinabrew, MPH, MSW
Director, Government and External Affairs
National Network of Public Health Institutes

Chris was an early staff member of NNPHI and returned last year in a new role responsible for relationships with national partner organizations, overall NNPHI communications, new business development, and implementing several new NNPHI programs. Chris was Esri’s Public Health Specialist from 2005-2010, serving the public health sector and linking public health GIS users worldwide. Chris graduated from Tulane University School of Public Health and Tropical Medicine, Tulane School of Social Work, and Williams College. He recently spent three years in Mozambique, where his wife conducted public health research.

Joseph Kimbrell, MA, MSW

President and CEO
National Network of Public Health Institutes

CEO
Louisiana Public Health Institute

Joe is a career public health leader who currently serves as the CEO of the Louisiana Public Health Institute (LPHI), an independent non-profit public health organization whose mission is to improve the health and quality of life in Louisiana. He also serves as the CEO and President of the National Network of Public Health Institutes (NNPHI), which is dedicated to enhancing the capacity of the national public health system by providing a network for 38 non-governmental public health organizations. Prior to his career dedication to establishing the public health institute model, Joe served as the Deputy of the Louisiana Office of Public Health. During his 20+ years of service in the governmental public health sector, Joe has had the opportunity to work with colleagues from across the county regarding a variety of public health issues including, but not limited to leadership and workforce development, school health, and performance standards. Joe has a Bachelor of Arts in History and Philosophy and a Masters in History from the Notre Dame Seminary, and a Masters in Social Work from Tulane University.

Erin Marziale, MPH
Associate Director, Member Services
National Network of Public Health Institutes

Erin joined NNPHI in November 2006. Her primary responsibilities are to provide direction for a portfolio of services to NNPHI members, including educational opportunities such as the NNPHI Annual Conference and funding opportunities. She also manages projects between NNPHI members and national funders such as the CDC and the Robert Wood Johnson Foundation. Erin has developed and provided a tailored technical assistance program to developing public health institutes and interested groups, including group learning activities and connectivity to relationship-based mentoring from institute leaders.

Before joining NNPHI, Mrs. Marziale was team lead for the 2006 Louisiana Health and Population Survey, a rapid population estimate in selected hurricane-effected parishes of Louisiana. The survey was conducted in collaboration with and technical assistance from the CDC and the US Census Bureau. Mrs. Marziale received her MPH in May 2006 from Tulane University School of Public Health and Tropical Medicine.
